Sprint Review

04/11/2023 - 18/11/2023 - Sprint 2

Group ID: 5
Project Name: AuraSky - NFT Marketplace
Prepared by: Manh, Dung, Hoang, Minh

Team members:

MSSV	Description	Role
20125012	Nguyen Duc Manh	Frontend, Designer
20125025	Duong Tuan Dung	Tester, Frontend
20125031	Pham Viet Hoang	Blockchain, Backend, Project Manager
20125038	Le Nguyen Quang Minh	Blockchain, Backend, Designer

What went well

- Complete use-case model

- Complete Use-case specification

- Complete web structure

- Smart contract does not work well

What went wrong

- Task scheduling and time management problem

What can be done differently in the next sprint to improve the project

- Task scheduling and time management problem

- Need to describe in detail the roles of actors in the use-case model

- Decompose features for each function clearly

- Review include, extend to use in accordance with use-case

What lessons we could learn

- Learn how to make a use-case model and use-case specification

- Research and create the basic request from the database

- Improve teamwork.
